

AAA Digital Platform

User Guide

Ambitious about Autism — Powered by Technology

Document Type	End-User Reference Guide
Version	1.0
Date	May 2026
Prepared by	Digital Platform Team
Audience	Practitioners, Career Dev Officers, Students, Employees, Interns

This guide covers all learner-facing features of the AAA Digital Platform. It is intended for Practitioners, Career Development Officers, and learners (Students, Employees, Interns). For administration tasks see the Admin Guide.

Contents

1.	Getting Started	Accessing the platform, logging in, and navigating
2.	Your Dashboard	Overview cards, announcements, and upcoming sessions
3.	Training Modules	Accessing and completing training content
4.	Lesson Experience	Interactive elements, quizzes, and certificates
5.	CV Builder	Creating and exporting your CV
6.	Careers Advisor	AI-guided careers assessment and report
7.	Job Openings	Viewing available job and placement opportunities
8.	Workshops & Sessions	Finding and joining virtual classroom sessions
9.	Settings & Profile	Account settings, MFA, and password management
10.	Getting Help	Support resources and troubleshooting

1. Getting Started

The AAA Digital Platform is a secure, web-based training environment. You can access it from any modern browser — no software installation required.

1.1 Accessing the Platform

Open your browser and go to **<https://asd-training-app-v2.vercel.app>**. The site works on Chrome, Edge, Firefox, and Safari on desktop, tablet, and mobile.

The screenshot shows the login page for the 'Ambitious about Autism' Training & Observation Platform. At the top, there is a logo with three colored triangles (yellow, green, blue) and the text 'Ambitious about Autism'. Below the logo is the text 'Training & Observation Platform'. The main content is a white box with an orange border containing the 'Sign in to your account' form. The form has an 'Email address' field with 'you@example.com' entered. Below this are two tabs: 'Email & Password' (selected) and 'Single Sign-On'. There is a 'Password' field with masked characters and a 'Forgot password?' link. An orange 'Sign in' button is at the bottom of the form. Below the button, it says 'Need an account? Contact your organisation administrator.' and 'Register your organisation'. At the very bottom of the page, there is a cookie notice: 'This site uses essential cookies for authentication and security. No tracking cookies are used.' with a 'Privacy Policy' link and an 'Accept' button.

Figure 1 — Login page

1.2 Logging In

- Enter the email address your organisation admin used when creating your account.
- Enter your temporary password (supplied by your admin). You may be prompted to change it on first login.
- Click **Sign In**. If MFA is enforced for your role you will be asked for a 6-digit TOTP code.
- If you forget your password, click **Forgot password?** to receive a reset link by email.

Your account must be created by your organisation administrator before you can log in. Contact them if you cannot sign in or have not received your credentials.

1.3 Single Sign-On (SSO)

If your organisation has enabled SSO, click the **Single Sign-On** tab on the login page and use the **Sign in with Google** or **Sign in with Microsoft** button. Your organisation admin must pre-create your account

before SSO login will work.

1.4 Navigation

After login you are taken to your **Dashboard**. The left sidebar provides links to all sections you have access to. Your role determines which sections appear. The user icon in the top-right opens your profile and sign-out option.

2. Your Dashboard

The Dashboard is your starting point. It shows a personalised summary of your training progress, upcoming sessions, and any active announcements.

Figure 2 — Learner dashboard

Dashboard cards include:

Lessons Completed	Total lessons you have finished across all assigned programs.
Training Progress	Per-program progress bars showing % completion.
Upcoming Sessions	Your next scheduled virtual classroom workshop.
Announcements	Important messages from your organisation or the platform team.
Feature Tiles	Quick links to CV Builder, Careers Advisor, and Jobs (if available to your role).

Announcements with an expiry date disappear automatically once the date passes. Pin important ones in your browser bookmarks if you need to refer back to them.

3. Training Modules

Your assigned training programs appear as links in the sidebar. Each program contains one or more modules, and each module contains lessons.

Figure 3 — Training module list

3.1 Accessing Your Training

- Click the training program name in the left sidebar (e.g. **ASD Awareness Training**).
- The module list shows all modules in the program. Each displays your completion percentage.
- Click a module to see its lessons. Completed lessons are marked with a green tick.
- Click a lesson title to open it.

3.2 Progress Tracking

Progress is saved automatically as you complete each lesson. A lesson is marked complete when you reach the end of the content and any quiz. You can revisit completed lessons at any time — your progress is retained.

If your organisation is assigned multiple training programs, each program appears as a separate link in the sidebar. You can work through them independently.

4. Lesson Experience

Lessons can contain rich text, images, video, interactive carousels, hotspot diagrams, and quizzes. Some lessons also have downloadable resources.

Figure 4 — Lesson page

4.1 Interactive Elements

Text & Images	Scroll through the content at your own pace.
Video	Click the play button. Use captions if available.
Carousel	Use the arrow buttons to move through slides. Each slide may have its own audio.
Hotspot	Click highlighted areas on an image to reveal more information.
Quiz	Answer multiple-choice questions. Your score is recorded.

4.2 Text-to-Speech

Many lessons include a **Listen** button (headphone icon) at the top. Click it to hear the lesson text read aloud in a British female voice. Carousel slides also have individual audio buttons.

4.3 Resources & Downloads

If a lesson has attached PDFs or other resources, a **Resources** section appears below the main content. Click the download link to save the file.

4.4 Certificate of Completion

When you finish a lesson (including any quiz), a **Certificate of Completion** is shown on screen. Your progress is automatically recorded.

Lesson progress is saved immediately. If you close your browser mid-lesson, you can return and continue — the platform remembers where you were.

5. CV Builder

The CV Builder is available to Career Development Officers, Students, Employees, and Interns. It guides you through creating a UK-format CV step by step.

Figure 5 — CV Builder

5.1 Creating a CV

- Navigate to **CV Builder** in the sidebar.
- Click the **+ New CV** dashed card to start a new CV.
- Work through the 8-step wizard: Personal Details, Personal Statement, Work Experience, Education, Skills, Interests, References, Review & Download.
- Progress is saved automatically as you type — you can leave and return at any time.
- On the final step, click **Download PDF** or **Download Word** to export your CV.

5.2 CV Templates

Accessible	Single-column, 12pt, 1.5 line spacing. Recommended default.
Modern	Two-column layout with a coloured sidebar.
Classic	Traditional centred UK CV layout.

Career Development Officers can view their students' CVs from the **My Students** section to provide feedback and support.

6. Careers Advisor

The AI Careers Advisor guides you through a structured questionnaire about your interests, strengths, and work preferences, then generates a personalised careers report.

Figure 6 — Careers Advisor

6.1 Starting a Session

- Click **Careers Advisor** in the sidebar.
- Click **Start a new session**.
- Answer each question by selecting from the options shown. There are 6 core questions plus optional additional questions.
- Click **Generate my report** when you are ready.

6.2 Your Report

The generated report includes four sections: your key strengths, suggested career pathways (3–5 roles with explanations), next steps to take, and workplace support recommendations. Download it as a PDF to keep for your records.

The Careers Advisor uses AI to generate suggestions. Results are guidance only — they are not a diagnosis and should be discussed with your Career Development Officer.

7. Job Openings

The Jobs section shows employment, apprenticeship, and placement opportunities curated by the charity for learners on the platform.

Figure 7 — Job Openings

7.1 Browsing Jobs

Scroll the list to see available roles. Each card shows the employer, job title, location type (On-site / Hybrid / Remote), employment type, and closing date.

7.2 Applying

Click a job card to see the full details including the job description, requirements, and autism-friendly workplace notes. Contact your Career Development Officer to discuss opportunities and prepare your application.

Only jobs that your organisation and role have been targeted to see will appear. If you think a job should be visible but is not, contact your CDO.

8. Workshops & Sessions

Virtual classroom sessions are scheduled by your organisation administrator. They use Zoom, Microsoft Teams, or a custom link.

Figure 8 — Sessions page

8.1 Finding Your Sessions

- Click **Workshops** in the sidebar.
- Upcoming sessions are listed with date, time, and host.
- Click **Join** to open the meeting link when the session is live.
- Past sessions may include a recording link if the host has added one.

8.2 Dashboard Widget

Your next upcoming session is also shown on the Dashboard as an **Upcoming Sessions** card so you can see it at a glance without navigating away.

9. Settings & Profile

Access your account settings by clicking your user icon in the top-right corner or via the **Settings** link at the bottom of the sidebar.

Figure 9 — Settings page

9.1 Changing Your Password

- Navigate to **Settings**.
- Enter your current password and your new password twice.
- Click **Update Password**.

9.2 Multi-Factor Authentication (MFA)

If MFA is enforced for your account, you will be prompted to set it up on first login. Use an authenticator app such as Google Authenticator or Microsoft Authenticator. Scan the QR code shown, then enter the 6-digit code to complete setup.

Keep your authenticator app accessible. If you lose access, contact your organisation administrator to reset your MFA.

10. Getting Help

The platform includes a built-in **How to Guide** accessible from the bottom of the sidebar. It covers common tasks and FAQs for your role.

Common Issues

Cannot log in	Check your email address. Try Forgot password? if needed. Contact your org admin if your account has not been created.
No training visible	Your org may not yet have training programs assigned. Contact your org admin.
Session link not working	The host must start the session first. Try refreshing the page.
CV Builder not visible	This feature may be disabled for your organisation. Contact your org admin.
Password reset email not arriving	Check your spam folder. Emails are sent from the Resend service — add it to your safe senders list.

Contact

For platform support, contact your **Organisation Administrator**. For technical issues with the platform itself, your admin will escalate to the Ambitious about Autism digital team.
